METHODOLOGY & DISCLOSURES

How we calculated these numbers.

WAGE DATA

BLS OEWS May 2024 RN annual mean ÷ 2,080 hrs, state-level. For CA: \$137.69/hour.

FLORENCE FEE STRUCTURE

Flat \$50,000 per RN placement fee, amortized over 36-month contract term (\$1,389/RN/mo equivalent). Fee is payable on successful employment start with replacement protection for early attrition.

FICA SAVINGS

Calculated as 7.65% (Social Security 6.2% + Medicare 1.45%) of the taxable wage portion only. NOT applied to benefits-loaded total compensation — FICA is statutorily limited to cash wages.

INCREMENTAL REVENUE ASSUMPTION

For Home Health Agency (HHA), we use \$300,000 per RN per year as a setting-specific incremental gross revenue benchmark. Actual revenue uplift depends on your case mix, payor mix, and operational scale.

F-1 COHORT ASSUMPTION

All quotes assume Florence's confirmed F-1 student pipeline. FICA exemption applies during the nonresident-alien period under IRC §3121(b)(19) (see IRS Pub 519). Eligibility must be confirmed by your payroll, tax counsel, and immigration counsel before contracting.

COMPLIANCE DISCLOSURE

Estimated employer-side FICA offset shown for eligible nurse cohorts only. Employee-side FICA benefit is shown separately as a nurse take-home benefit and is not included in employer ROI unless presented as combined economic value.
